Static X, New Pain

Misdirected, I'm awakened Minifests in, into my head I feel new pain, becoming part Of my every, every moment now New Pain - you told me you wanted and hated me New Pain - you kill me now this becomes part I'm so sure İ'm, so confused I'm All things to you, nothing to you I feel new pain, in these shadows Of my every, every moment now New Pain - you told me you wanted and hated me New Pain - you kill me now this becomes part New Pain - you told me you wanted and hated me New Pain - you kill me now this becomes part You told me that you wanted me You told me you hate me Tear for our suffering Told me that I'm the one You wanted to kill me And now it makes this all ugly Becomes part of me Turning into this new pain Your horse I ride, bite down hard And now I suffer My heart to my mind it burns Rips it hurt, it kills
