

# Stay together, Mandaryna

I'm standing here  
I'm not alone  
We all are one  
Cause we know together we're strong  
Come take my hand  
I'll guide your life  
Just follow me and we're all gonna be fine  
Let us all  
Walk into a better world  
Where we all live in harmony  
Stay together  
Stay together every day  
On the bad (?) just give your all  
Stay together  
And with all your friends  
You'll make the dream come true  
We make the dream come true  
Now follow me  
With all your heart  
You're not alone  
I promise you we'll never part  
I'm on your side, we stand as one  
Nothing to fear  
So trust me now, no problem will come  
Let us all  
Walk into a better world  
Where we all live in harmony  
Stay together  
Stay together every day  
On the bad (?) just give your all  
Stay together  
And with all your friends  
You'll make the dream come true  
Let us all  
Walk into a better world  
Where we all live in harmony  
Stay together  
Stay together every day  
On the bad (?) just give your all  
Stay together  
And with all your friends  
You'll make the dream come true  
We make the dream come true
