

# Steppenwolf, Shackles And Chains

Take what you got to give and let it shine  
Take what you got to give but leave me mine  
Nobody likes you the way that I could  
For you, I'd dive to the bottom  
Don't you know I surely would

Can you hear me callin' late at night when love comes tumblin' down  
Slidin' in your kitchen late at night, hear me stumblin' around  
Someday you'll want me the way I want you  
And then I'll climb thru your mountain if you really want me to

Don't hold your knife so close to my head  
I'll hide all the shackles and chains on my bed  
I know I'm a rounder, it's hard to forget  
After all the little playful things I've done

Now if you believe me, then let us be kind  
We'll sit down together and talk over wine  
If you show me your game, then I'll show you mine  
'Til our shadows fade beneath the rising sun
