

Steve Vai, Genocide

Steve Vai
Title: Genocide
Album: Fire Garden

Chorus :
Hey hi, we're racin' with time
To get some kicks before we die
Hey, ho and if you don't know
We will stand together on the other side

Hey, man, can I call you my friend
Here in the beginning of the end
This fight already begun
And now it's time to take it to euphoria

Chorus :
Hey, friend, I can feel your pain
Even heroes cry in the rain
Stand up so we can hear what you say
Said genocide, yeah
Oh genocide

Hey, lord, tears are burnin' my face
I'm the one that's tryin' to fool fate
Oh, god, I think I'm in shock
Whatever it takes to gate us through this genocide

Chorus :
You like to hear it ? well here it goes

(guitar solo)

Oh, lord, would you breath us in ?
Wash your blood over our skin
Hold tight 'cause it's gonna go black
Never let go and get us through this genocide

Hey, man, I know you're my friend
Here in the beginning of the end
Hey, friend, we're all that we got
Hold my hand and jump into genocide
