Stiff Little Fingers, Closed Groove

Punctuality's a waste of time Now nostalgia is past it's prime History's a thing of the past Being first will never last

[Chorus]

Beep beep I'm an answering machine I mean to say I say what I mean Beep beep I've got very strong views Plug in any loop tape you choose

My one single fault is modesty I'm changing my views consistently Amnesia's a thing I try to forget Who can't kick gambling? Want to bet?

[Chorus]

The case for racism is black and white If you want world peace you've got to fight Must do what you're told to be free Think what you like - if you agree with me

[Chorus]

Speak whenever you hear this tone Scream whenever you hear this tone
