Sting, Lady Of Delight

Just the kind of lady to really set you sailing on emotion's ocean Just like a river she's rolling on forever got you running around now you've found She turns the tide of your tired heart Back to the place where you made a start She's got the power to burn you up But she's turning, turning your golden heart

Lady, lady of delight Lady, lady of the night

Don't stand in the gutter boy, mumble and mutter that the world ain't treating you right I'm talking to you I can prove it too You'd better listen to me I've got a guarantee Now who told you life was meant to be Happiness, Light, Love and Free What made you think you had a right? You're just a frightened child in the middle of the night

Lady, lady of delight Lady, lady of the night

Wild dogs baying at the moon Alley cats singing out of tune Hoot of owls across the lake These are sounds that follow her wake Don't think you can change her I know she'll rearrange you You might disagree but just you wait and see You think you're winning but look at the state you're in danger - stranger Some call her goddess some call her a whore But she's a sister a lover a mother and more She keeps on coming she makes it clear That if you let her in you've got nothing to fear

Lady, lady of delight Lady, lady of the night

EVERY LITTLE THING SHE DOES IS MAGIC Words and Music by Sting

Do I have to tell the story Of a thousand rainy days since we first met It's a big enough umbrella But it's always me that ends up getting wet

Every little thing she does is magic Everything she do just turns me on Even though my life before was tragic Now I know my love for her goes on

Though I've tried before to tell her Of the feelings I have for her in my heart Every time that I come near her I just lose my nerve as I've done from the start

Every little thing she does is magic Everything she do just turns me on Even though my life before was tragic Now I know my love for her goes on

I resolve to call her up a thousand times a day And ask her if she'll marry me in some old fashioned way But my silent fears have gripped me Long before I reach the phone Long before my tongue has tripped me Must I always be alone?

Every little thing she does is magic Everything she do just turns me on Even though my life before was tragic Now I know my love for her goes on
