Sting, Landlord

I don't want to rent your house from you I don't know how you can expect me to I ain't moving 'cause I know my rights Too many homeless on the streets at night

You own a street and a block of flats You earn your living like the other rats You've no morality what do you care You deal in poverty you buy despair

I ain't moving 'till the bailiff comes I've got no weapons, gonna get me some I ain't moving 'till the bailiff comes I've got no weapons, gonna get me some

You go and call yourself a business man You're just a parasite on Phylosan You're just a middle-class middle-aged shit You sold your granny for a three-penny bit

You own a street and a block of flats You earn your living like the other rats You've no morality what do you care You deal in poverty you buy despair
