

# Sting, Take Me To The Sunshine

I've been working too hard at the office all year  
I've been saving all my days for a break  
And I've got to get away with my baby for a time  
If it's just for my sanity's sake

Nothing but work and never to play  
Make Jack a dull boy or so they say  
And nothing in the world gonna make me stay  
I've just got to get away for a day

Oh the smog in the city is clogging up my head  
And the noise of the traffic and the poison lead  
Too many people I must confess  
I'm looking for the cure of terminal stress

Take me to the sunshine  
Take me to the sun

It's a perfect paradise and it ain't no trick  
You can walk, you can run, play golf 'til you're sick  
Swim all day, you can dance all night  
You can ever fall in love if you're feeling right

The surf will roar and the birds will sing  
And the warm wind sighs as you practice your swing  
And the cares of the world will fade away as you  
Watch the sun setting on a golden bay

They say that modern man needs to find himself  
And what's bad for his spirit is bad for his health  
And when the world's used up and there's nowhere else  
You'll realize Mother Nature is the Commonwealth

Take me to the sunshine  
Take me to the sun  
Take me to the sun

Take me to the sunshine  
Take me to the sun  
Take me to the sun

I've been working too hard at the office all year  
I've been saving all my days for a break  
And I've got to get away with my baby for a time  
If it's for my sanity's sake
