

# Stone Sour, Suffer

You wont admit it, but its true Im happy without you  
I turned away and let your drama pull you in  
You always said I was a fool, but something carried through  
I never wanna see your face again

So many problems left behind Im sorting out my mind  
This Idiot has turned into a better man  
I found my soul in someone else, who doesnt feel like hell  
Who doesnt wanna make me kill myself

No! No! I have every right to hate you  
No! No! I have every right to hate you

I was leaving, stop believing, then I end up right back in your arms  
Now Im bleeding, fucking seething I was through with you long time ago

Some people suffer for no reason, but theyre the ones to blame  
So walk away, let it go and save yourself  
Before you tell yourself a lie, just tell that one goodbye  
How much more can you take before you fucking die?

No! No! I have every right to hate you  
No! No! I have every right to hate you

I was leaving, stop believing, then I end up right back in your arms  
Now Im bleeding, fucking seething I was through with you a long time ago

No! No! I have every right to hate you  
No! No! I have every right to hate you

I was leaving, stop believing, then I end up right back in your arms  
Now Im bleeding, fucking seething I was through with you a long time ago
