

# Stryper, Do unto Others

We all have questions  
Many concerns  
Simple frustrations  
Respect is what we yearn

We are offended  
Easily on cue  
Often unfriended  
Without a single clue

If we could step back  
To see what matters  
We would call off the attack  
Break the hate  
And watch it shatter

(Chorus)  
Do Unto Others as you would  
Have them do unto you  
Often it's a thought misunderstood  
But one we must pursue

This life is too short  
To waste a day  
And worry about  
The games we often play

Look to the future  
It's shining bright  
It's really not hard  
To choose what we know is right

It's simple choices  
We make alone  
If we would think of each other  
Maybe we would heal  
Not suffer

(Chorus)  
Do Unto Others as you would  
Have them do unto you  
Often it's a thought misunderstood  
But one we must pursue
