

# Stryper, Sorry

More than just complicated  
More than just okay  
No it's not over rated  
Every word you slay

Sorry  
Doesn't always make it starry  
Maybe next time be more charming  
So you don't have to say Sorry  
You don't have to say Sorry

Another lie and deception  
Just a smile that's paid  
Better change your reflection  
Start a new crusade

Sorry  
Doesn't always make it starry  
Maybe next time be more charming  
So you don't have to say Sorry  
You don't have to say Sorry
