Stylus, I Found You (ft. Gosia Andrzejewicz)

I've been searching all my life
Someone who can save my heart
Now I'm breathless cause I found you
uuuu and I finally realise
uuuu felt in love with you tonight

I've been searching all my life
Someone who can save my heart
Now I'm breathless cause I found you
uuuu and I finally realise
uuuu felt in love with you tonight

I I wanna wanna give you all my heart
wanna tell you what I feel inside
hold my hand and make me hypnotise

I I wanna wanna give you all my heart
wanna tell you what I feel inside
hold my hand and make me hypnotise

uuuu and I finally realise
uuuu felt in love with you tonight

I've been searching all my life
Someone who can save my heart
Now I'm breathless cause I found you
