

# Styx, Lady

(Dennis DeYoung)

Lady, when you're with me I'm smiling  
Give me all your love  
Your hands build me up when I'm sinking  
Touch me and my troubles all fade  
Lady, from the moment I saw you  
Standing all alone  
You gave all the love that I needed  
So shy, like a child who has grown

'Cause you're my lady of the morning  
Love shines in your eyes  
Sparkling, clear, and lovely  
You're my lady

Lady, turns me on when I'm lonely  
Give me all your charm  
Evenings when she lays down beside me  
She takes me gently into her arms

Lady of the morning  
Love shines in your eyes  
Sparkling, clear, and lovely  
You're my lady

Lady of the morning  
Love shines in your eyes  
Sparkling, clear, and lovely  
You're my ... lady
