

Suburban Kids With Biblical Names, Loop Duplicate

And it's bigger than everything I have ever done before (x2)

I found a reason for staying home tonight
just by self tonight
all by myself
I'm gonna loop duplicate my heart into a million songs
I've found a reason for not going out tonight
I'm making out tonight, with my computer
I'm putting guitars on hold when my multi-track comes around

And is it really so
so many interesting effects
I wanna try
I wanna try them all on you

And it's bigger than everything I have ever done before

Can't get no sleep tonight
feels so good tonight
damn it feels so sweet tonight
all by myself
the neighbors can't complain cause I've got my headphones on
can't get no sleep tonight
damn it feels so good tonight
everything is alright, now
my computer
I'm gonna save a million songs for you so I hope you enjoy it

And is it really so
so many interesting effects
I wanna try
I wanna try them all on you

(Can't understand repetetive chatter)

And it's bigger than everything I have ever done before (x2)
