

# Suburban Legends, Summer Crush

Looking back

Summer's just a bore without your love  
to have, every man can show a boy a heart attack  
Until he feels that one peculiar fact  
That we're just drifting along, all these lonely nights  
I finally found ya, girl I've got to have ya

(Chorus:)

Summer crush, hits me fast and I'm falling harder  
It's the feeling of butterflies  
Summer crush, hits me fast and I'm falling harder  
It's the feeling of butterflies

Now that time is our own, on this lovers' roller coaster  
Walking by on my own, will i have to wait  
Longer, darling, to give it to one another  
And tear each other apart  
Now you're beating down your door  
My ears are aching baby to hear you breathing  
Love me freely

(Chorus)

Yeah, it's the feeling of butterflies  
It's the feeling of butterflies

(Chorus)
