

# Superheist, Have Your Way

Tall tales shattered  
Pristine images of me  
Nurtured sadness  
It's all beautiful to see

We can't mix them

Flauntless glories  
Amplified to graduate  
Constant beatings  
A bruise underneath your face  
Creeping skywards  
I don't understand your ways  
Silence broken  
It's all beautiful to me

We can't mix them

It's more than you take  
It's more than you break  
It's more than you can  
It's more than I am to understand

Chorus  
Come and have your way  
Don't take too long  
Come and have your way  
Don't take too long  
A vision to pray  
Too far away  
Emotions are plain today  
Come and have your way  
Don't take too long

Razored mirrors  
Wells been empty for so long  
Climate changes  
But it only rains on me

We can't mix them

It's more than you take  
It's more than you break  
It's more than you can  
Its more than I am to understand

(Chorus)

Don't take too long  
Don't take too long  
Don't take too long  
Don't take too long

It's more than you can take  
It's more than you can break  
It's more than I can understand x2
