

SuperM , Jopping

I don't need even care
here we will burn on the stage
left to the right
we gon' make it
make it bang

put your hands in the air
let me see you bounce
to the left, to the right
it begins the round

cuz
when we jumping and popping
we jopping
jopping
jopping
jopping

you know how we get down
jopping
how we get down
jopping
how we get down
cuz
when we jumping and popping
we jopping

step on the floor
start a riot
where the competition man it's looking one-sided
up like a 7 foot we the fluest
a lifestyle you should try it
so
make it last
front to back
the roof's on fire, let it burn to an ash
we gn' keep jopping, tell the DJ ring it back

.... like a paraglide
... in a pair of slides
... out to paradise
... to a better life
gotta move, watch the money

make the crowd go wild in a small room
let me see you put it on like a costume
.....

we love to move it
keep it going
don't stop
it's in your nature
... girl what you want
...
we go on and on
champagne life, that's all you want
don't stop letting it go cuz we got that glow

you know how we get down
how we get down
how we get down
cuz
when we jumping and popping
we jopping

I don't even cae
left to the ight, we gon' make it, make it bang
put your hands in the air
let me see you baounce
to the left, to the right,

CUZ
when we jumping and popping
we jopping
