

# Surf Curse, Freaks

Don't kill me just help me run away  
From everyone I need a place to stay  
Where I can cover up my face  
Don't cry, I am just a freak  
I am just a freak  
I am just a freak  
I am just a freak  
My head is filled with parasites  
Black holes cover up my eyes  
I dream of you almost every night  
Hopefully I won't wake up this time  
I won't wake up this time  
I won't wake up this time  
I won't wake up this time
