

# Suzi Quatro, Betty Who?

Miles keep rolling, down the track  
She's on the bus, she ain't going back  
Fire is burning, in her soul  
Her mind is dreaming, she's got nowhere to go

What can we do with Betty... who  
(What you want from me baby, show me what you got)  
Ain't nothin' new, another Betty... who  
(What you need from me baby, show me while your hot)  
What can we do with Betty... who  
(Give it to me over and easy, innocent your not)

Small town easy, dusty shoes  
Midnight leaving, yes she's paid her dues  
She found the music, she found the light  
She's got that rhythm, god, she's flying tonight

What can we do with Betty... who  
(What you want from me baby, show me what you got)  
Ain't nothin' new, another Betty... who  
(What you need from me baby, show me while your hot)  
What can we do with Betty... who  
(Give it to me over and easy, innocent your not)  
There ain't nothing new with Betty... who  
(Give it to me over and easy, show me while your hot)  
(Give it to me over and easy, show me while your hot)

Grab a partner, a brief romance  
It's time to tango, she's caught up in the trance  
Now the party's over, the dance is done  
Her arms are empty, now she's back on the run

What can we do with Betty... who  
There ain't nothing new with Betty... who
