ELECTRO JUGNI

Baby won't you wind on me  
Show me what you gonna do  
You're giving that vibe to me  
Stopped in my tracks since I found you  
You're setting my world alight  
Frozen, trapped in your eyes, trapped in your eyes  
Oh girl

Got to work it out  
When she's in the house  
She's my-my-my-my-my

ELECTRO JUGNI

You see her coming you don't know what to do  
With just one look she's taking control of you  
You know what she wants and she won't let you go  
You know what she wants and she won't let you go

ELECTRO JUGNI

Uh yeah, uh huh (repeats through verse)

Girl you got me trippin  
You got me freakin  
When the bass hits on the floor  
You're hitting that spot  
And getting me hot  
So let me turn it up some more  
You're giving that vibe to me  
Stopped in my tracks since I found you  
You're setting my world alight  
Frozen, trapped in your eyes, trapped in your eyes  
Oh girl

The way she's playing you don't know if it's true  
With just one look she's got a hold over you  
The way that she moves as she crosses the floor  
Will have you desiring her more and more

Jugni tell me how you want it  
Electrify my world you got it  
Won't you, work up with that booty  
If you know how come on move it for me  
Burning up  
On the floor

Grab my hand  
Back and forth  
Close your eyes open up your mind  
Run with me come with me don't waste time

Got to work it out  
When she's in the house  
She's my-my-my-my-my
