

# Sweet, New Shoes

I got myself some new shoes  
To walk away from my blues  
I got myself some new shoes  
Got no time for bad news in my new shoes  
You, you where the one  
I was a young man  
You where temptation  
Dreams off you every night  
Change when i turn on the light  
Don't give me those love sleepness nights anymore  
I got myself some new shoes  
To walk away from my blues  
Got myself some new shoes  
Got no time for bad news in my new shoes  
Signs, all left behind  
Now i'm a changet man  
A new sensation  
Circules are turning around  
I'll keep my feet on the ground  
Now that i found what it's like to free  
I got myself some new shoes  
To walk away from my blues  
Got myself some new shoes  
Got no time for bad news in my new shoes  
I got myself some new shoes  
To walk away from my blues  
Got myself some new shoes  
Got no time for bad news in my new shoes  
New Shoes, new shoes, new shoes, green door
