

Swirl 360, Ask Anybody

Who is the girl
Who's got the morning in her eyes
Who is the one
It should come to no surprise

Ask anybody in the world
(Ask anybody in the world)
Ask anybody and it's you
Without a doubt
Ask anybody in the world

Who is the one that's putting
Every star to shame
Who is the voice inside me
Whispering your name

Ask anybody in the world
(Ask anybody in the world)
Ask anybody and it's you
Without a doubt
Ask anybody in the world

'Cause you're a hard act to follow
And a tougher act to swallow
And I feel like I'm losing ground
And I never want to have to say no
Cause if you were a radio
I'd never turn you down

Ask anybody in the world

Her name's the title and
The words to every song
Ask anybody and it was you all along

Ask anybody in the world
(Ask anybody in the world)
Ask anybody and it's you without a doubt
Ask anybody in the world
