

# Symphony X, Eve Of Seduction

It's alright no need to question  
Taste the night  
Just close your eyes  
It just takes one bite

All you need's in my possession  
Just believe  
Come take my hand tonight  
And trust your dream

I'm falling all to pieces  
Slowly losing control

Can it be true  
Why can't you see I'm burning for you  
There's no disguise in my desires  
What can I do?

All you will know  
Give me your heart  
Give me your soul  
I'll tear it apart  
So long as you never  
Let me go  
Oh

On your ear a whisper fallen  
Show no fear  
Just spread your wings and fly  
Shed no tears

Pleasure's pain, I hear it calling  
Feed the flame  
Within becoming kin with the sons of Cain.

I'm falling all to pieces  
Slowly losing control

Can it be true  
Why can't you see I'm burning for you  
There's no disguise in my desires  
What can I do?

All you will know  
Give me your heart  
Give me your soul  
I'll tear it apart  
So long as you never  
Let me go  
Oh

All you will know  
Give me your heart  
Give me your soul  
I'll tear it apart  
So long as you never  
Let me go  
Oh
