

# Syncdrifters, Better Place (Ela Stasiuk)

Everybody wants to live a better place  
Not a sign of worry in their face  
Full of believe  
They'll never recive  
What they're chasin' for

Better place...

Everybody's livin' they're lives day after day  
They chase they dreams but they dreams just fly away  
Full of believe  
They'll never recive  
What they're chasin' for

Better place...

Better place...

In world without shadows  
Could you see the light

There would be no sunrise  
No stars shining bright

It's there for a reason  
So you can tell apart  
What's wrong and what is right  
Gives colors to your life
