

System Of A Down, Protect The Land

The big gun tells you what your life is worth
What do we deserve before we end to Earth
If they will try to push you far away
Would you stay
And take a stand
Would you say with gun in hand
They protect the land
They protect the land

Those protect the land
Those hey protect the land
Those hey protect

The enemy of man is his own Decay
If they're evil now then evil they will stay
They will try to push you far away
Would you stay
And take a stand
Would you say with gun in hand
They protect the land
They protect the land

Our history and victory and legacy we send
From scavengers and invaders those who protect the land
Those hey protect the land
Those hey protect
Those hey protect the land
Those hey protect

Some were forced to foreign lands
Some would lay dead on the sand
Would you stay and take command
Would you stay with gun in hand
They protect the land
They protect the land
They protect the land
They protect the land

Our history and victory and legacy we send
From scavengers and invaders those who protect the land
Those hey protect the land
Those hey protect
Those hey protect the land
Those hey protect
