

T. Rex, Sing Me A Song

Hey, Hey...

Sing me a song that the world can sing along
And I'll show you a song that stands for living
Sing me a song that the world can sing along
And I'll show you a song from the heart

White, blinding light, that's so bright
It enfolds you
Scream that's your dream, it's so real
It remoulds you

Sing me a song that the world can sing along
And I'll show you a song that stands for living
Sing me a song that the world can sing along
And I'll show you a song from the heart

Yeah, Yeah

White, blinding light, that's so bright
It enfolds you

Sing me a song that the world can sing along
And I'll show you a song that stands for living
Sing me a song that the world can sing along
And I'll show you a song from the heart
