## T. Rex, Spaceball Ricochet

I'm just a man
I understand the wind
And all the things
That make the children cry
With my Les Paul
I know I'm small
But I enjoy living
Anyway

Book after book
I get hooked
Everytime the writer
Talks me like a friend
What can I do
We just live in a zoo
All I do is play
The spaceball ricochet

Deep in my heart There's a house That can hold Almost all of you I bought a car It was old but kind I gave it my mind And it disappeared

I love a girl She is a changeless angel She's a city it's a pity That I'm like me I said how can I lay When all I do is play The spaceball ricochet
