

# TAEMIN □□, Advice

yeah no matter what anyone says  
My way nothing to tell from my face  
the blurred out words  
without a filter  
no oho h oh

even the evil that hides  
the smile inside the glass  
maski s lost oh oh oh

ay you!  
you take me apart however you wish  
ay you  
you say things the way you'd like to

moving around the tip of your tongue  
you don't get it , get it  
do you never get the keys to my lock

show your imagination in a more novel way  
i destroy the torso that you were chasing after  
you already know it too  
one advice  
i;ll shoot the one advice  
the more you try to trap me  
i'll go off the rails so thae a good look  
if you want to see the end  
push my buttons
