

# Take That, Hey Boy

If you want some love and you don't know how  
Gotta tell that girl, gotta tell her now  
Gotta give her time, gotta give her more  
If you want that girl, gotta let her know

If you want that girl, gotta let her see  
Gotta burn inside, gotta let it be  
If you want that girl and you don't know why  
Oh it's only gonna drive you crazy

Don't wait for someone to change your life  
Don't settle for less than you deserve  
Don't waste a minute of your precious time  
Don't wait for someone, go change your life

Hey boy, watcha got?  
Don't leave me on the phone  
Don't want no trouble in the house  
Hey boy, watcha got?  
Can't take this anymore  
You might just be my hero

Get outta your head, get into your heart  
Get outta your head, get into your heart  
Get outta your head, get into your heart  
Hey Boy, watcha got?

Hey boy, watcha got?  
Can't take this anymore  
Don't want no trouble in the house

If you want some love, but you can't say why  
Gotta tell that boy, gotta hold him tight  
Gotta let him know, gotta let it show  
Gotta hope the feeling grows

If you want that guy, gotta let him see  
Gotta turn his head, turn up the heat  
If you want that guy, gotta make him yours  
Your heart's beating and it won't stop baby

Hey boy, watcha got?  
Don't leave me on the phone  
Don't want no trouble in the house  
Hey boy, watcha got?  
Can't take this anymore  
You might just be my hero

Get outta your head, get into your heart  
Get outta your head, get into your heart  
Get outta your head, get into your heart  
Hey Boy, watcha got?
