

# Take That, Love Love

You bring me right back down to the earth from the promised land  
We're getting close to the centre of the earth with an honest plan  
You'll never be your mother or your father do you understand  
Do you understand

We don't have too much time here  
And time it travels far too fast  
We're not too far we're down here  
Before they take it from our hands

Why don't you teach your heart to feel  
And give you love love  
Give you love love  
Give it all away  
Why don't you teach your heart to talk  
And give you love love  
Give you love love  
Give me give me what I need

We'll take you right back down to the earth from the mother land  
This is a first class journey from the Gods to the son of man  
You're at the gates of human evolution don't you understand  
Why don't you understand
