Take That, Meaning Of Love

Deceit and lies, is all I've taken Let me surface to breath No sacrifice, no inspiration Can you understand me?

Why should I ask you, Why should I worry? You never worry about me Why should I ned you, Why don't I let you go? And let my heartaches run free

I thought I knew the meaning of life Now I'm asking you why I thought I knew the meaning of life now open wide

What's on my mind, so many questions Though the answers I can guess You slip away shelter from confrontation Look my life is such a mess

I thought I knew the meaning of life Now I'm asking you why I thought I knew the meaning of life now open wide
