

Take That, Take That And Party

Come on, come on, come on, come on take that and party
Come on, come on, come on, take that:
Every part of you makes me feel that I've gotta touch you
you know if only you knew what's in my mind
Come on, come on, come on, come on take that and party
Come on, come on, come on, take that:
Don't catch the fall when I play real hard
You'll never stop all my games
If you only knew what's in my mind
CHORUS x 2
