

# Take That, We Got All Day

Let's take our time  
We got all day  
Sit back and watch  
Everyone chase  
Just meditate  
Breathe it all out  
The whole world can wait  
'Til they work it out

Nowhere  
But now  
No rush  
Slow down

'Cause we got all day  
We got all day  
We got all day  
We got all day

Take aim and wait (Wait, wait)  
Commit to drop out  
Yeah, we're doing OK (It will be just fine)  
When you don't work it out  
Lie back, close your eyes  
(Lie back, close your eyes)  
In silence, no sound  
(Silence, no sound)

Nowhere (Nowhere)  
But now (But now)  
No rush (No rush)  
Slow down

'Cause we got all day  
We got all day  
'Cause we got all day  
We got all day

Kick back, relaxing  
Nobody asking  
No one to be but yourself  
Just going nowhere  
Stood still but don't care  
If we need to be somewhere else

Then we got all day  
We got all day

We got all day  
We got all day  
We got all day  
We got all day
