

# TALISCO, YOUR WISH

Now is the day  
Time to forget comes  
Leave far away  
Another day comes

And there's no fixed rules on the way we see life  
And there's no fixed rules on the way we see life

Let's smile and slow down  
Now release your wish

Let's smile and slow down  
Now release your wish

Hey, pack your bags  
I'll take you somewhere  
Don't be afraid  
I'll always be there

And there's no fixed rules on the way we see life  
And there's no fixed rules on the way we see life

Let's smile and slow down  
Now release your wish

Let's smile and slow down  
Now release your wish

Remember you and slow down  
You'll never be in pain  
Remember you and slow down  
You'll never be chained
