Tammy Wynette, That's When I Feel It

Fanny's washing the clothes I know think I'll give Mary Sue a call I've cleaned the house there's nothing left to do Gonna be another lonely night cause he's not here to hold me tight The kids are on bed my day is through Sometimes I wonder if he still loves me when it's come He never fails to change my mind the minute he gets home That's when I feel it his love the most That's when he holds me holds me so close That's when I know it because he shows it how much he loves me Sometimes I wonder... That's when I feel it...
