

Tanlines, Not The Same

I always feel fine when I see your eyes
You always feel wild when I'm in your mind
This washover back was for her always

We're not the same /4x

Tell everyone, we haven't change
Tell everyone, we're not the same

We are standing face to face
Two shadows in life
We're both seeing all the people
Seeing black and white

We're not the same /4x

Tell everyone, we haven't change
Tell everyone, we're not the same

You are so intent on being everything, everything
You are so intent on pleasing everyone, everyone

We're not the same /4x

Tell everyone, we haven't change
Tell everyone, we're not the same
