

# Tate McRae, bad ones

You say taht you've been missing me  
Every single time we're not together  
And i know that i've been gon erom everything  
But i needed that  
Say you wish that you were kissing me  
It comes outta nowhere, whenever  
But i am kinda sick and tired  
You're so selfish  
Say that i am not coming bact to you

But wait don't leave  
Hate that it's so easy for you  
Wait, i can't see  
Try to walk away

I keep falling for the bad ones  
The always-make-me sad ones  
Trying hard to hold my ground  
But i am always dalling down for the bad ones  
Way too good at falling for the bad ones
