

# Tatiana Okupnik, Keep It On The Low

Baby when you close to me  
I feel like I can't breathe  
You got this thing about you  
Makes me wanna get with you  
It's your eyes it's your smile it's your touch  
UUU baby can't you see  
The though about you kissing me  
Boy you know what really really really turns me on  
You inspire my desires so I wrote this song

Ref

All I wanna do with you Pls don't tell them If you won't tell boy I won't tell  
Just keep it on the low  
All I wanna do with you Pls don't tell them If you won't tell boy I won't tell  
Just keep it on the low  
You give me butterflies  
And that's the reason why I'm so shy  
You know I can't deny  
I wanna taste your lips

And that's my only alibi  
Take me places no one knows  
All alone in cognito  
Get there fast and take it slow  
Make me say boy I want more

All I wanna do with you Pls don't tell them If you won't tell boy I won't tell  
Just keep it on the low
