Tavares, It Only Takes A Minute (Extended Remi

It only takes a minute, girl To fall in love, to fall in love It only takes a minute, girl To fall in love, let's fall in love

What's an hour of the day? We throw at least one away Walk the streets half a year Trying to find a new career

Now if you get a flu attack For thirty days you're on your back Through the night, I send you gifts Baby give me half a chance

It only takes a minute, girl To fall in love, to fall in love It only takes a minute, girl To fall in love, let's fall in love

It only takes a minute, girl To fall in love, to fall in love It only takes a minute, girl To fall in love, let's fall in love
