

# Taylor Swift, Never Grow Up

Your little eyelids flutter  
Cause you'e dreaming  
So i tuck you in  
Turn on  
Your favourite night light

To you everything's funny  
You got nothing to regret

If you could like that

Oh darling,  
Don't you ever grow up  
Don't you ever grow up  
It could stay this simple

I won't let nobody hurt you  
Won't let no one break your heart
