

Teitur, Halfway Between

Been driving through the night
Running traffic lights
Trying to get to the city
Somethings in my way
Its only pride you say
Its much more than this already

Coming home to make you see
Take a seat and wait for me
Somewhere halfway between
Thats where we like to go
The answers we will know
Somewhere halfway between

Made one promise I will keep
Thats all one really needs
Wont tell you a thousand big words
To fade away like billboards
Guess Ive really said enough
Dont want to sell away our love
There is a better way
Im sure we can afford

Coming home to make you see
Take a seat and wait for me
Somewhere halfway between
Thats where we like to go
The answers we will know
Somewhere halfway between

Patience cannot hurt you they say it is a virtue
The waiting makes you stronger
You wont be waiting too much longer

Coming home to make you see
Take a seat and wait for me
Somewhere halfway between
Thats where we like to go
The answers we will know
Somewhere halfway between
