

# Temperance, Mission Impossible

(Mission impossible)  
Something's going wrong  
Mr. Hunt, I'm sorry  
There's a call for you "Oh, well"  
What is going on?  
I'm on holiday you know  
Get somebody else  
You're the best spy in the world  
That's why I need you now  
So, I understand  
The chips are down again

There's a villain called chimera  
Who's going to kill us all  
There's no need to say you're sorry  
I am sorry too

Another journey for me  
Another challenge to win  
I'm here again to complete  
My mission impossible  
I am not ready to die  
The fear's become my ally  
What do you see in my eye?  
A mission impossible

(Mission impossible)  
Mission impossible  
(Mission impossible)  
(Mission impossible)

Where do I begin?  
First of all I need to know  
Who's cool and who's not  
What's behind the mask  
I guess I'll just never know  
Nyah, I'm sorry love  
We rolled up a snowball and  
Tossed it into hell  
What will happen now?  
Let's see what chance it has

If Sean Ambrose finds the virus  
It'd be hell on earth  
20 hours 'til the world  
Will claim Bellerophon

Another journey for me  
Another challenge to win  
I'm here again to complete  
My mission impossible  
I am not ready to die  
The fear's become my ally  
What do you see in my eye?  
(Mission impossible)

Another journey for me  
Another challenge to win  
I'm here again to complete  
My mission impossible  
I am not ready to die  
The fear's become my ally  
What do you see in my eye?

Another journey for me  
Another journey for me  
Another challenge to win

Mission impossible  
(Mission impossible)  
Mission impossible  
(Mission impossible)
