

# Tendo, Sometimes All The Time

I like to think  
that your my best friend  
but sometimes im not sure  
I like to think  
that this will never end  
but again im not sure

but when i see you with him  
it all falls apart in my head  
and i when i see him with you  
i simply wish that i was dead  
(dead man dead)

Sometimes im all alone  
you prefer to spend your time with him  
sometimes on the phone  
you prefer to talk to him and not me

maybe its just in my head  
but this isnt what I signed up for  
maybe your not the one for me  
but things seemed so great the week before

Why cant you understand me?  
Why cant you always stand by  
Why cant you see through him for what he really is?(chorus)  
Why cant you understand me?  
Why cant you always stand by  
Why cant you see through him for what he really is?

I wanna tell you how I feel  
but i dont wanna screw this up  
if only I could look you in the eye  
and tell you ive had enough

Have You ever heard the song  
"i wanna girl who laughs for no one else"  
your only friends now but when its over he'll want you for him self

Why cant you understand me?  
Why cant you always stand by  
Why cant you see through him for what he really is?(chorus)  
Why cant you understand me?  
Why cant you always stand by  
Why cant you see through him for what he really is?

You only think your friends  
that i dunno what im on about  
you tell me Im just being a dick  
But when I see you again it hurts me  
deep inside,you could say it makes me fucking sick

(solo)  
(interlude)

Why cant you understand me?  
Why cant you always stand by  
Why cant you see through him for what he really is?(chorus)  
Why cant you understand me?  
Why cant you always stand by  
Why cant you see through him for what he really is?

You only think your friends  
that i dunno what im on about

you tell me Im just being a dick  
But when I see you again it hurts me  
deep inside,you could say that it makes me fucking sick

Why cant you understand me?  
Why cant you always stand by  
Why cant you see through him for what he really is?(chorus)  
Why cant you understand me?  
Why cant you always stand by  
Why cant you see through him for what he really is?
