

# Texas, Make Me Want To Scream

You gave me all that I got  
And there's no one to blame  
Yeah yeah I'm still missing you

There's no need for this anger  
There's no need for this pain  
Yeah yeah I can't get through to you

You make want to scream  
You make me want to lie  
You break my heart  
I can't get through to you  
You make want to scream  
You make me want to lie  
You break my heart  
I can't get through to you

You take hell from your friends  
Then you throw them away  
Now they're no use to you

...

You make want to scream  
You make me want to lie  
You break my heart  
I can't get through to you  
You make want to scream  
You make me want to lie  
You break my heart  
I can't get through to you  
(repeat 2 times)
