

The 1975, Me & You Together Song

I can't remember when we met
because she didn't have a top on
I improvised a little bit
she said my references were 'spot on'

'can I take you for a drink?'
she said: 'oh, god, I'll have to think
because we're mates... it doesn't feel right?'
and I said 'it's cool' and 'I was messin''
but it's true
it's you
you're the one who makes me feel right
