

The 1975, People

wake up /3x
it's Monday morning
and we've only got a thousand d of them left

well I know it feels pointless
and you don't have any money
but we're all just gonna try our fucking best

well my generation wanna fuck Barack Obama living in a sauna with legal marihuana

well girls
food
gear
I don't like going outside so bring me everything here

people like people
they want alive people
the young surprise people stop fucking with the kids

wake up /3x

we are appalling and we need to stop just watching shit in bed

and I know it sounds boring
and we like things that are funny but we need to get
this in our fucking heads

the economy's a goner

republics a banana
ignore if you wanna

fuck it I'm just gonna get girls
food m
gear
I don't like going outside so bring me everything here

people like people
they want alive people
the young surprise people stop fucking with the kids
