

# The Academy Is..., Summer Hair Forever Young

We're crashing cars we used to share  
With summer girls with summer hair  
We're driving 'round chasing the stars  
But the party's busted up before it ever starts  
I'll never let you go,  
Don't ever forget  
Tell me you'll remember,  
Forever young  
I'll never let you fall,  
It's not over yet,  
You & me forever,  
Forever young  
We're forever young  
Stop making plans, start making sense  
Don't you believe any word they said  
Sparked up, sparked up like a book of matches,  
Fallin through the night, rising from the ashes  
I'll never let you go,  
Don't ever forget  
Tell me you'll remember,  
Forever young  
I'll never let you fall,  
It's not over yet,  
You & me forever,  
Forever young  
We're forever young  
Don't come any closer,  
Don't tell me it's over,  
Don't kiss me goodbye  
Here we are,  
Am I taking this too hard?  
Don't say that it's easy,  
The hardest part is leavin  
Don't you wonder why...  
Suddenly, we're all running out of time  
I'll never let you go,  
Don't ever forget  
Tell me you'll remember,  
Forever young  
I'll never let you fall,  
It's not over yet,  
You & me forever,  
Forever young  
We're forever young  
We're forever young  
We're forever young
