The Academy Is..., Summer Hair Forever Young

We're crashing cars we used to share With summer girls with summer hair We're driving 'round chasing the stars But the party's busted up before it ever starts I'll never let you go, Don't ever forget Tell me you'll remember, Forever young I'll never let you fall, It's not over yet, You & amp; me forever, Forever young We're forever young Stop making plans, start making sense Don't you believe any word they said Sparked up, sparked up like a book of matches, Fallin through the night, rising from the ashes I'll never let you go, Don't ever forget Tell me you'll remember, Forever young I'll never let you fall, It's not over yet, You & amp; me forever, Forever young We're forever young Don't come any closer, Don't tell me it's over, Don't kiss me goodbye Here we are, Am I taking this too hard? Don't say that it's easy, The hardest part is leavin Don't you wonder why... Suddenly, we're all running out of time I'll never let you go, Don't ever forget Tell me you'll remember, Forever young I'll never let you fall, It's not over yet, You & amp; me forever, Forever young We're forever young We're forever young

We're forever young
