

# The Alice Band, Now That You Love Me

You could've been imagined,  
You could've been something less  
I could've been waiting for so long  
Everything I wished for, didn't even exist  
Fortunately I ended up wrong

And it took me by surprise to see  
All the magic in your eyes for me

Now that you love me  
What do I do thought I was crazy  
Waiting for you  
Something amazing could be true  
How can the world feel like my dreams?  
Now That You Love Me

I never would have realized,  
I never would have understood  
That I could begin to feel so good  
(In any other circumstances, I'd be the one with doubt  
But daydreams do come true and I know that now,)  
I know that

All the sadness in my life has gone  
I can leave it all behind from now on

Now that you love me  
What do I do I thought I was crazy  
Waiting for you  
Something amazing could be true  
How can the world feel like my dreams?  
Now That You Love Me

Now that you love me...  
I don't need anything else  
Now that you love me...  
Since you told me the way that you felt  
Now that you love me  
And I wanna believe this is really my life

Oh...it's my life yeah

Now that you love me  
What do I do I thought I was crazy  
Waiting for you  
Something amazing could be true  
How can the world feel like my dreams?  
Now That You Love Me  
What do I do I thought I was crazy  
Waiting for you  
Something amazing could be true  
How can the world feel like my dreams?  
Now That You Love Me
