

The Aquabats, Hi-Five City!

This is our city
this is me barrio (??)
all the girls are pretty
all the dudes are super pros

Calling all kids
that means you
slapping hands till they're turning blue
'cause, this is our city
this is our home away from home

Give me a hi-five, then we'll be home
back in our city

We are united
like the airline that we'll fly
when we're invited
to the city of hi-fives

We'll wait in line to get back in
time for the pat-down fun to begin
'cause this is our city
this is our one two three four

my... give me a high five
then we'll be home
back in our city
'cause me and you well we can't build this city alone
we can't build this city alone
we can't build this city well now you're on the inside
now you're one of us
now you're on the inside of downtown hi-five city tonight

this is our city
this is the place we go
and it would be a pity
if you never had the chance to know...
we'll run around, slap fives all day
we'll hi-five all our cares away
cause this is our city
this our home away from home

give me a high five
then we'll be home
back in our city
'cause me and you well we can't build this city alone
we can't build this city alone
we can't build this city well now you're on the inside
now you're one of us
now you're on the inside of downtown hi-five city tonight
